**Programme Outcomes for Add-On Course: Nursery and Gardening Techniques**

**1. Fundamental Knowledge in Horticulture**

- Gain foundational knowledge about plant growth, soil types, and suitable climatic conditions for nursery and garden plants.

**2. Hands-On Practical Skills**

- Develop essential gardening techniques such as seed sowing, grafting, pruning, and propagation methods.

**3. Sustainable Gardening Practices**

- Understand eco-friendly gardening techniques, including organic farming, composting, and water conservation methods.

**4. Plant Care and Management**

- Learn about pest management, fertilization schedules, and disease control in plants to ensure healthy nursery upkeep.

**5. Landscape Designing Skills**

- Acquire the ability to design and plan home gardens, public parks, and institutional landscapes creatively and efficiently.

**6. Entrepreneurial Competencies**

- Develop skills to set up and manage a small-scale nursery or gardening business.

**7. Environmental Awareness**

- Promote biodiversity and conservation through gardening practices that encourage the use of native plants and sustainable methods.

**8. Teamwork and Leadership**

- Enhance teamwork abilities and leadership skills through collaborative projects in nursery establishment and maintenance.

#### **9. Problem-Solving Skills**

- Build analytical skills to address common gardening challenges like pest infestations, plant diseases, or adverse weather impacts.

#### **10. Aesthetic and Therapeutic Understanding**

- Recognize the role of gardening in improving mental well-being and creating aesthetically pleasing environments.

#### **11. Preparedness for Further Studies**

- Provide a foundation for advanced courses or certifications in horticulture, landscaping, or agricultural sciences.

#### **12. Social and Community Engagement**

- Encourage participation in community gardening initiatives and promote awareness about the importance of green spaces.
