Brief Report

Every year our college NSS unit organises an event called VANAMAHOTSAV in which plantation of trees are undertaken.

This year on 01/02/2023 our college organised an event on tree plantation in association with forest department Karnataka Karwar.

We selected nearby village **Mahasateewada Ulga** for the event. The programme aimed to plant about 50 saplings in the school premises and outside. Also we planned to arrange a short lecture by the chief guest to educate the students about the protection of trees.

At first we started to implant the seeding supplied by the forest department. Forest guards of Karwar guided our students about how to plant the trees. When we completed the planting the chief guest gave a speech to educate the school students about the protection of trees and environment. The programme was ended up by serving all the students and those who involved in the programme with delicious snacks. Some photographs are attached below.
