College is organized a one-day national webinar on "*Ecosystem Endurance: An Epitome Challenge for Sustainability*" on 22nd October 2020. The objective of the webinar was to address the pressing issues surrounding ecosystem resilience and the importance of sustainable practices to protect our environment for future generations. The webinar featured Dr. Shivakumar Haragi, an esteemed Associate Professor from KU PG Centre, Karwar, as the resource person. With his expertise in environmental science and sustainability studies, Dr. Haragi provided valuable insights into the subject matter. **Dr. Haragi** illustrated the impact of environmental degradation, emphasizing the role of educational institutions in spreading awareness about sustainability. He discussed the following points in detail:

- **Ecological Balance:** He explained how the disruption of ecological balance due to human interference leads to loss of biodiversity.
- **Climate Change:** The effects of climate change on natural habitats and species adaptation were discussed.
- **Community Involvement:** Dr. Haragi highlighted the importance of community involvement in conservation efforts and adopting eco-friendly practices.
- **Policy Advocacy:** He emphasized the role of environmental policies and their enforcement to ensure sustainable development.

A total of 60 delegates attended the webinar, including students, faculty members, and representatives from other academic institutions. The participants were actively involved throughout the event, posing questions, and sharing their perspectives on the need for sustainable ecosystems. The interactive nature of the event allowed attendees to gain a deeper understanding of the subject matter.
